Unique & Exciting Team Building Events

Few environments bring people together as naturally as sailing on Sydney Harbour

Sailing is **immersive, energising and genuinely enjoyable**. It also encourages the **communication, cooperation and trust** that strong teams depend on. Whether guests are taking the helm, trimming the sails or supporting their crew, everyone has an opportunity to contribute.

The result is a shared experience that **builds team connection, strengthens relationships and creates lasting memories outside the usual workplace environment**.

Established in 1995 by Olympic sailor Matt Hayes, Sydney By Sail has helped thousands of corporate groups experience the excitement of working together under sail. From our Darling Harbour base, directly in front of the **Australian National Maritime Museum**, we operate a **modern fleet of luxury sailing yachts** and deliver **professionally managed team building events** across Sydney Harbour.

No sailing experience required

Our experienced skippers and crew provide a complete safety briefing and introduce each group to the fundamentals of sailing. Guests can become actively involved or participate at a level that suits them.

Genuine team participation

Taking the helm, trimming sails and working together as a crew encourages natural communication, collaboration and problem-solving.

Flexible event formats

Choose from a competitive multi-yacht regatta, a relaxed harbour sail, or a combination of racing and social cruising. Morning, afternoon and twilight events are available seven days a week.

An unforgettable Sydney Harbour setting

Events begin from our convenient Darling Harbour marina, directly in front of the Australian National Maritime Museum, with alternative pick-up and drop-off locations available on request.

Customised around your team

Every event is a blank canvas. Catering, beverage packages, prizes, branded merchandise, photography, videography and other personalised additions can be arranged to suit your objectives and budget.
